

# PWUBS

Overpaintable protective spray coating, category : Protective coatings

**DESCRIPTION**

PWUBS is a quick drying waterbased stone chip protection product. The product provides a black elastic film, which efficiently protects the vehicle body from stone chips, road salt and other effects.

PWUBS is environmental friendly.

**USAGE**

PWUBS was developed and designed for surface protection of under-body parts for cars, busses, trucks and other vehicles. PWUBS is used on line application as well as in the aftermarket. The product is designed to protect the most exposed parts such as door sills, spoilers, bumpers, wheel arches and edges. PWUBS can, after drying, be over painted with most car lacquers.

**APPLICATION**

PWUBS can either be applied with brush, Airmix-or Airless-spraying system

The spraying is recommended with a product temperature between +15°C to +25°C.

Before application surface must be clean and dry to prevent disturbance of cross-linking of the material.

Technical properties:

Type of film: Elastic

Density at 20°C: 1270 – 1300 kg/m<sup>3</sup>

Dynamic Viscosity at 20°C: 8,5 – 9,5 Pa.s

pH value: 8,5 – 9,5

Dry matter content: 63 % by weight

Rec. film thickness, Wet: 500 – 1000 mm

Rec. film thickness, Dry: 250 – 600 mm

Drying time at 23°C: 0,75 -4 h, touch dry

(depend of conditions as temperature,

humidity, air-circulation, film thickness)

Effect on car paint: None (SS 186011)

Removability: Water and alkaline cleaner

Heat resistance: > 90°C (SS 186035)

**TOOLS CLEANING**

Dirty parts of tools can be cleaned with water or alkaline cleanser.

**STORAGE AND PACKAGING**

PWUBS is not a classified product according to 91 / 155 EC.

Warranty period is 6 months after production at keeping storage conditions.

The product must be kept in the closed vessels at temperature between +10°C to +30°C.

During transport the temperature may not drop under +5°C.

Package:

30L – metal package

208L – metal package

**Colour**

Black
